**G. Benjamin Berrett**

G. Benjamin Berrett, PharmD, BCPS, BC-ADM, is the manager of the University of Utah Health's Pharmacy Primary Care Services (PPCS) and works as a clinical pharmacist in the ambulatory care setting at the Parkway Health Center in Orem, UT. He began his pharmacy career with Walgreens in 2005 and completed his education at Midwestern University in 2010, then completed a pharmacy residency with Indian Health Services (IHS) in Whiteriver, Arizona. He continued working with IHS as a clinical pharmacist with focus in ambulatory care, diabetes management, and informatics until 2014. Upon returning to Utah, he joined the Utah Diabetes and Endocrinology Center for several months before taking his current position in 2015.

Ben's goal is to advance ambulatory and community pharmacy role by demonstrating increased value. Ben is involved in various committees within and outside of University of Utah Health including, Vizient Ambulatory Pharmacy Development, Utah Community Pharmacy Enhanced Services Network Executive Team, University of Utah Diabetes Core Committee, and University of Utah Population Health Operations Committee amongst others. He is determined to improve his profession, staff, himself, and their service and how teams work together to care for patients. He has a passion for patient care, and maintains clinical practice twice a week at the University of Utah Parkway Health Center. In addition to management and clinic responsibilities, Ben enjoys working with learners and frequently has pharmacy students and residents on rotation.

**Hannah Herold**

Hannah Herold has a diverse background of education and experience in public health with a focus on health promotion and behavioral science. She obtained her Masters of Public Health and Masters of Arts degrees from San Diego State University, where she taught *Public Health Research Methods* and assisted with chronic disease research studies through various research centers. She currently works as the Chronic Disease Prevention Program Manager for the Wyoming Department of Health, where she directs statewide efforts around preventing and managing chronic diseases such as hypertension and type 2 diabetes.
