

WSCC Teaser (Promotional) – Closed Captioning

WEBVTT

00:00:00.506 --> 00:00:02.646

[Music]

00:00:03.146 --> 00:00:05.536

>> Health and wellness are an integral part of what we do,

00:00:05.536 --> 00:00:09.536

because we see what we do as being key

00:00:09.726 --> 00:00:11.966

to kids being academically successful.

00:00:12.306 --> 00:00:15.206

>> The Whole School, Whole Community, Whole Child model,

00:00:15.206 --> 00:00:20.506

or the WSCC Model, is our approach to addressing health in schools.

00:00:20.506 --> 00:00:22.366

It's student-centered.

00:00:22.366 --> 00:00:24.386

It focuses on the connections between health

00:00:24.386 --> 00:00:27.976

and academic achievement, and the role that the community plays

00:00:27.976 --> 00:00:29.216

in supporting the school.

00:00:29.216 --> 00:00:32.266

There are promising practices,

00:00:32.586 --> 00:00:35.246

but there's not prescribed

approach on how to use it.

00:00:35.336 --> 00:00:37.796

It's going to look
different in each school

00:00:38.036 --> 00:00:39.396

because each school is going

00:00:39.396 --> 00:00:42.466

to determine what their unique
needs and priorities are.

00:00:42.526 --> 00:00:45.946

I really hope that the
viewers will be inspired

00:00:46.146 --> 00:00:47.506

by these stories shared

00:00:47.506 --> 00:00:51.936

and access the many resources
available to them as they try

00:00:51.936 --> 00:00:55.546

to make their environment
healthier for their children.

00:00:55.546 --> 00:00:57.916

>> Often times, it's that
people think we have to decide

00:00:57.916 --> 00:01:02.056

between health and wellness
and academic success.

00:01:02.056 --> 00:01:05.406

I contend, and our school
district would contend,

00:01:05.406 --> 00:01:05.976

we can do both.

00:01:06.516 --> 00:01:13.090
