

## State Burden

### **NPAO:**

- In 2007, 61% of adults in New Mexico were overweight or obese and 14% of high schools students were overweight, based on self-reported height and weight.
  - 82% of high school students and 78% of adults in New Mexico consumed fewer than 5 fruits and vegetables per day.
  - 49% of New Mexico high school students did not attend physical education classes.
  - 47% of adults in New Mexico were not engaged in sufficient moderate or vigorous physical activity.
- Excerpt from CDPHP State Profiles at [www.cdc.gov](http://www.cdc.gov)*

### **Diabetes:**

- 595 adults in New Mexico died from diabetes mellitus in 2005.
  - In 2007, 7% of adults in New Mexico reported being diagnosed with non-pregnancy related diabetes.
- Excerpt from CDPHP State Profiles at [www.cdc.gov](http://www.cdc.gov)*

### **Heart Disease:**

- Heart disease accounted for 23% of deaths in New Mexico in 2005, while stroke caused 5% of deaths.
  - In 2007, 26% of adults in New Mexico reported having high blood pressure (hypertension) and 35% of those screened reported having high blood cholesterol, which puts them at greater risk for developing heart disease and stroke.
- Excerpt from CDPHP State Profiles at [www.cdc.gov](http://www.cdc.gov)*

### **Poverty:**

% of people living below the poverty level (2007-2011) = 19.0(*US Dept of Commerce, US Census Bureau*)

## Funding

### **FFY 2012 funding level:**

FY12 Estimated total: \$1,017,950

### **FY 2014 funding level**

SPHA Basic Award: \$ 609,375  
Enhanced Award Requested: \$1,600,000  
SPHA Enhanced Award: \$ 0

### **Staffing Impact:**

Total FTEs lost 1

## Program Impact:

- Negative: NM has been reduced by 44% from previous funding for diabetes and obesity programs alone and will have to implement 2 additional programs, heart disease and school health with the reduced SHPA funding
- Negative: for the diabetes program we will not be able to implement the NDPP as broadly across the state
- Negative: for the diabetes program funds will not be available to work with health systems to have meaningful use of EHRs and to report on NQF59
- Negative: for the diabetes program cross training of CDSMP and DSMP trainers and leaders will not be able to take place with the basic funding

- Negative: for heart disease and stroke prevention NM has never been funded by CDC to implement a state program. Infrastructure development will not be adequately supported by SPHA funding to make population based advances, e.g. improved detection and management of high blood pressure NQF18
- Negative: for school health NM school nurses will not be able to increase the use of individualized health plans for students with asthma, diabetes, and food allergies
