

# Chronic Disease Directors Weigh In **COVID-19 Response Efforts**

What percentage of your state's chronic disease and health promotion staff have been deployed to COVID-19 response efforts during this crisis?

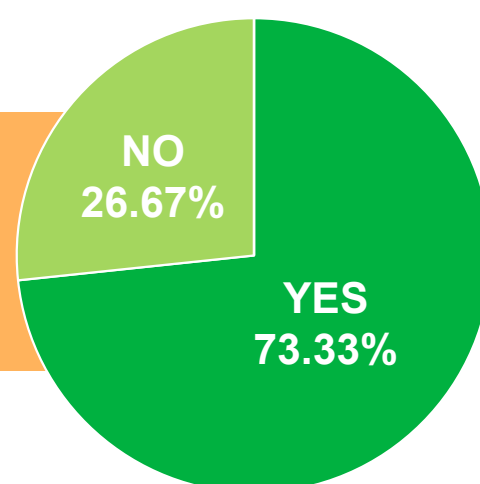

Will your state Chronic Disease Unit need flexibility...

... on the existing commitments and deadlines with your cooperative agreements/grants and contracts?

... on due dates for upcoming NOFO application deadlines (e.g. tobacco and BRFSS?)

Please select which statement is true:

My state **wants flexibility** to spend Federal chronic disease money on COVID-19 response efforts.

29.41%

Other

26.47%

We **do not need flexibility** to spend Federal chronic disease money on COVID-19 response efforts.

23.53%

My state **needs flexibility** to spend Federal chronic disease money on COVID-19 response efforts.

20.59%

**Additional comments** The survey asked for additional comments. For a sample of representative comments provided, please contact [info@chronicdisease.org](mailto:info@chronicdisease.org).
