Approximately one-third (32%) of the webinar attendees completed the webinar evaluation survey (N=21).

## Summary Results

**Overall, the webinar was well-received.** The participants were asked to rate the webinar on a scale from “1” to “5” with “5” being “excellent” and “1” being “poor.” The majority (80%) gave the webinar a rating of “5” and 20% gave it a rating of “4.”

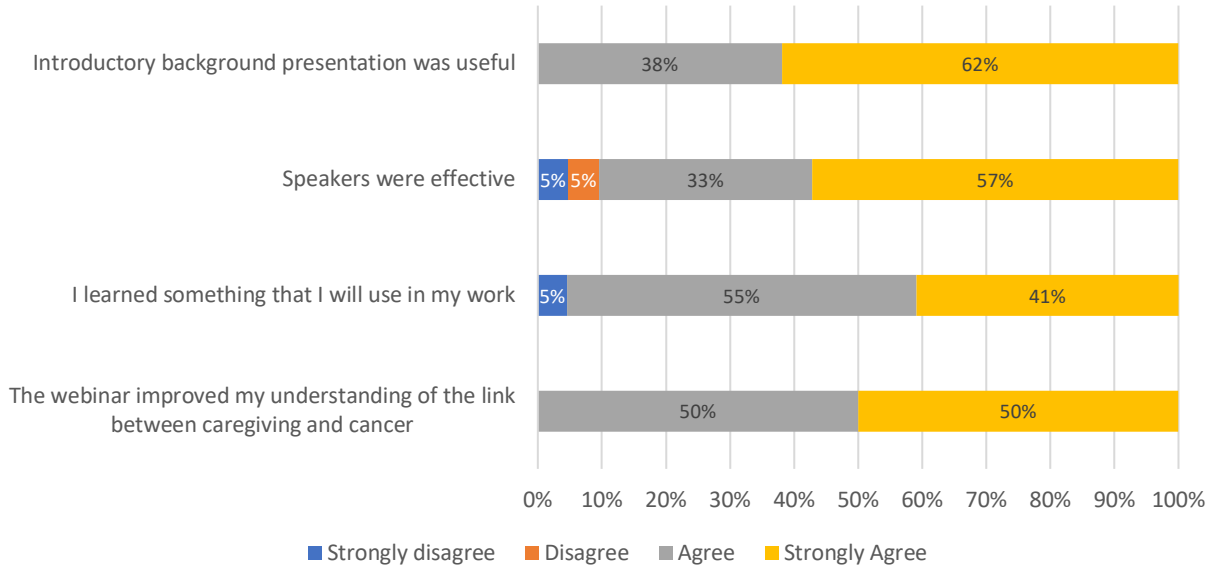

**Overall, the participants provided positive feedback on the webinar content and presenters.** The majority of the respondents felt that the webinar improved their “understanding of the link between caregiving and cancer,” with 100% of the respondents indicating that they either “strongly agree” (50%) or “agree” (50%) with the statement (See Figure 2).

Furthermore, the overwhelming majority of the respondents (95%) found webinar information helpful, with 41% saying that they “strongly agree” and 54% saying that they “agree” (54%) with the statement, “I learned something that I will use in my work” (See Figure 2).

The respondents felt that the speakers were effective (90%), introductory background information was useful (100%) and Zoom platform was an effective way to deliver webinars (95%) (See Figure 2). More specifically,

- 57% “strongly agreed,” 33% “agreed,” 5% “disagreed” and 5% “strongly disagreed” with the statement “speakers were effective”
- 62% “strongly agreed” and 38% “agreed” with the statement “introductory background presentation was useful”
- 57% “strongly agreed,” 38% “agreed,” and 5% “disagreed” with the statement “Zoom platform is an effective way to deliver webinars”

Figure 2: Please indicate your level of agreement with the following statements

Among 20 participants who said that they learned from the webinar something that they will use in their work, 38% indicated that they plan to use the information provided for collaboration with other agencies and communities, 35% said that they will use it for program planning, 15% said that they will use it in grant applications, and 9% said that the information will be for personal use (See Figure 3).

Figure 3: Please indicate how you plan to use the information provided in the webinar (Please check all that apply)
