

Cancer Screening Saves Lives

As you get older your risk of cancer may increase. It is important to know your family health history. You can also reduce your risk by:

- Being physically active
- Not using tobacco products
- Choosing healthy foods and drinks
- Getting screened regularly

The Kansas Breast and Cervical Cancer Early Detection Works Program is supported by the Centers for Disease Control and Prevention, Cooperative Agreement number NU58DP006273 and through grant funding from Susan G. Komen.

How to Enroll

Call toll free 1-877-277-1368. If you qualify for this program, you will be given an enrollment number and referred to an Early Detection Works health care provider.

What if Something is Found?

Early Detection Works pays for most follow-up tests. These tests may help you find out if you have cancer or a pre-cancerous condition. Your health care provider will help arrange follow-up appointments with you.

If You Need Treatment

Kansas residents diagnosed with breast or cervical cancer through this program are eligible for referral to KanCare (Kansas Medicaid). Other treatment options may be available for those not eligible for KanCare.
