

# Bridge the Gap to Wellness

The TN Breast and Cervical Screening Program presents a free program for Tennessee employers to access strategies to improve the health and wellbeing of their employees and bridge the gap to wellness.

In 2017, there were over **5,300** new cases of breast and cervical cancers diagnosed in Tennessee and over **1,000** women died.

**"Cancer not only leads to economic burdens for employees but also for employers."**

Women with breast or cervical cancer can miss productive days at work and home due to illness.

Approximately 3 out of 10 female workers (23%) do not have a current mammogram.

Approximately 2 out of 10 female workers (18%) do not have a current cervical cancer screening.

## BRIDGES TO WELLNESS INCLUDE:

Informational resources such as brochures about our program, breast & cervical health, healthy living, vaccinations and more

Workplace screening and sign-up eligible employees for the program

Arrangements for a mobile mammography bus to come to your workplace to screen eligible employees on site

Support in designing policies that promote employee health and preventative care

Lunch & Learns to educate about the importance of cancer screening and current recommendations
