Worksite Wellness

A Preventive Screening Policy saves employers money and increases productivity. Let us help at no cost to you.

Heart Disease & Cancer...

Our 2 biggest killers cost lives and billions of dollars. Yet, these chronic diseases can often be prevented or detected early with screening.

A Preventive Screening Policy ...

Saves Lives

- Preventive screenings detect & stop diseases, keeping employees healthy.
- Identifying cardiovascular threats prevent heart disease.
- The biggest cancer killers, including breast, cervical & colorectal, which can be detected - even stopped - with screening.

Saves Money

- Employers win with lower healthcare costs, better employee retention, increased productivity/fewer sick days & reduced training needs.
- Most preventive screenings are covered by insurance, so little-to-no out-of-pocket cost.

We Help Implement At No Cost To You ...

Screenings

- We act as a bridge to screenings, from being able to provide on-site services to directing people to no-cost options.

Education

- We provide education & resources for your employees to live healthier lives, which is better for them & for your company.

Who We Are...

Louisiana Cancer Prevention & Control Programs (LCP)

- Mainly funded by the CDC, housed at LSU Health New Orleans School of Public Health.
- Fights cancers that can be prevented or detected early, including breast, cervical, colorectal & lung.

Well-Ahead Louisiana
LDH Bureau of Chronic Disease Prevention & Healthcare Access

- Designates WellSpots across the state.
- WellSpots are workplaces that voluntarily implement healthy changes (wellness benchmarks) to help their employees live well.

Things To Know...

- Chronic disease costs Louisiana companies & taxpayers billions each year.
- To implement a policy, LCP will meet with key staff to assess screening needs, barriers & opportunities & may include surveys, focus groups, etc.
- It takes approximately 2-3 hours over a period of time to develop a policy & select activities.
- LCP will provide cancer materials. Well-Ahead can provide resources & technical assistance on nutrition, physical activity & mental health.
- Your team leads from there, but we are always ready to assist.
