

Bon Secours Patient Navigation

Number of Patients Navigated and Screened by Cancer Screening Type

Average Number of Patients Navigated and Screened each Month per Cancer Screening

This dashboard displays the baseline and annual colorectal cancer (CRC) screening rates for the Virginia Colorectal Cancer Control Project (VCRCCP) at the health system and clinic level.

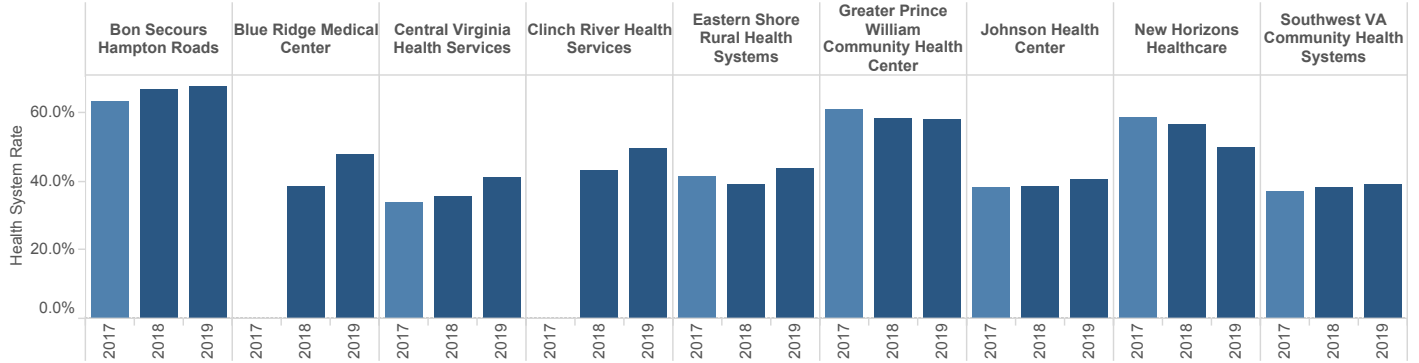

Instructions: Select the 'Health System' from the drop down menu. Use the Filters under 'Clinic Name' to select/ deselect specific clinics to view the baseline and annual CRC screening data; all health systems and clinics can be viewed when selecting '(All)'. Use the tooltip to view the percent change from baseline to annual and the filter 'Clinic Level % Change from Baseline to PY1' to select clinics that increased or decreased.
