

BREASTEST & MORE

HELPING WOMEN STAY HEALTHY

hat

A statewide program that provides mammograms, clinical exams and Pap tests at no cost to low-income, medically underserved women 50 and older.

where

Accessed through county health departments statewide, staff determine if women meet program guidelines, give exams and follow-up as needed.

who

A public program that can fund...

why

More women in Georgia are diagnosed with breast cancer every year than any other state. About 100 Georgia women die from breast cancer each year.

...treatment... helping to... of deaths from... cervical cancer among Georgia's underserved...
