

Re-igniting a navigation program

In Fiscal Year 20-21 the PA-BCCEDP piloted a Fee for Service pay structure to increase navigation-only in Pennsylvania. A total of 52 patients were screened through this pilot. This number is expected to more than double in the upcoming fiscal year.

Meeting check ins

Navigation coordinator and DOH lead established regular check ins.

CDC policy interpretation

DOH lead shared CDC policy, mandatory data elements, and examples of other state models.

Logistics

A line item was established to track costs, consent form was revised, and agreements were amended.

Training

Navigation coordinator trained clinics to enter data into web-based system.

Data Quality

Navigation coordinator checked data entry for completeness, timeliness and coordinated payment.
