of families live within 60 miles of an ECHO Autism provider

84%

of patients received Dermatology ECHO expert suggested care

1,863

providers participated in COVID-19 ECHOs

5,913

providers participated in ECHOs since 2014

97%

of counties joined COVID-19 ECHOs

112

counties/St. Louis city have ECHO providers

\$22 million

saved by Asthma and Hep C ECHOs

2,300

Organizations have participated in ECHO

MISSOURI IS GLOBAL LEADER FOR ECHO

Show-Me ECHO is one of 14 global superhubs for training others to create ECHOs. It has launched some of the first ECHOs in such areas as COVID-19, opioid use, veterans behavioral health, developmental disabilities and kidney disease. New ECHOs are addressing pressing health needs.

COVID-19 in Missouri ECHO's Rapid Response Timeline 2020

March

COVID-19 ECHO

Shares latest developments, answer questions, & discusses management related to COVID-19. Lead by MDHSS Director Randall Williams, MD.

April

Telemedicine

Uses case-based learning to address topics such as reimbursement, operations, regulations, best practices & more.

June

MO Moms & Babies

6/24-9/9 (COVID-19 focus)
Addressed perinatal COVID-19 care by sharing evidence-based practices, innovation, collaboration & community networks.

September

COVID-19 & Kids

Shares latest developments, answers questions, & discusses management to support school and health professionals.

November

Nursing Home COVID-19 Action Network ECHO

Focuses on reducing isolation, early identification, prevention of spread & appropriate care to residents with mild & asymptomatic cases.

December

Managing Hospitals & Patients in a Pandemic

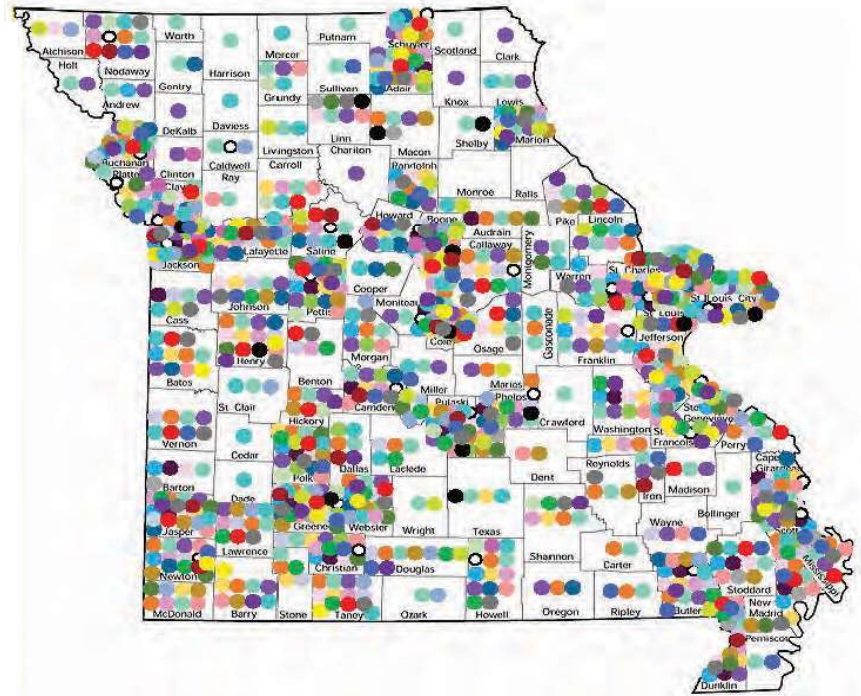

Optimizing personnel, places & resources used for patient care & transitions at hospitals, long-term acute facilities & rehabilitation centers.

UNLESS NOTED, ALL ECHOS ARE ACTIVE AS OF DECEMBER 2020

Show-ME ECHO's primary pandemic partners include the Missouri Department of Health and Senior Services, Missouri Hospital Association, Missouri Chapter: American Academy of Pediatrics, Heartland Telehealth Resource Center, University of Kansas, Kansas Hospital Association, Project ECHO in New Mexico, U.S. Agency for Healthcare Research and Quality, and Institute for Healthcare Improvement.
