

NACDD Pulse Survey of Chronic Disease Directors

The Preventive Health and Health Services Block Grant (PHHSBG) funds many chronic disease categorical programs nationwide. The graph below represents the percentage of chronic disease directors (n=20) who report that the PHHSBG funds a specific program.

An overwhelming majority of respondents stated that the impact of a cut in PHHSBG funding would result in the discontinuation of certain programs or activities.

Has the pandemic affected allocation of PHHSBG funding?

Of those that reported that the pandemic *has* affected the allocation of PHHSBG funds:

- **100%** stated that activities have been postponed due to pandemic response
- **80%** stated that different activities have been prioritized
