

DPP *Express*

Charlene Wallace
National Director, Diabetes Prevention Program
American Diabetes Association
cwallace@diabetes.org

Driven by the Mission

**Expand Access to
Lifestyle Change
Programs**

**Quality Data
Management and
Reporting**

To **PREVENT** and cure diabetes and to improve the lives of all people affected by diabetes

ADA is committed to expanding access to the evidenced based LCP to ensure the **88 MILLION PEOPLE** with prediabetes have the opportunity to prevent or delay type 2 diabetes.

Providing user friendly data collection to ensure that programs and networks can make **DATA DRIVEN DECISIONS** maximizing the effectiveness of the program.

What Makes DPP *Express* Unique?

As a non-profit, the ADA recognized the need for data management to help advance the efforts of the National DPP.

- DPP Express was launched in 2017
- Tools to help programs stay on top of recruitment efforts
- Biometric data tracking – go beyond what is required
- Build your own payment model
- In it for the long haul with constant platform improvement
- Provides data management and monitoring for **State Networks and Umbrella Hub Organizations**

Lifestyle Change Program Features

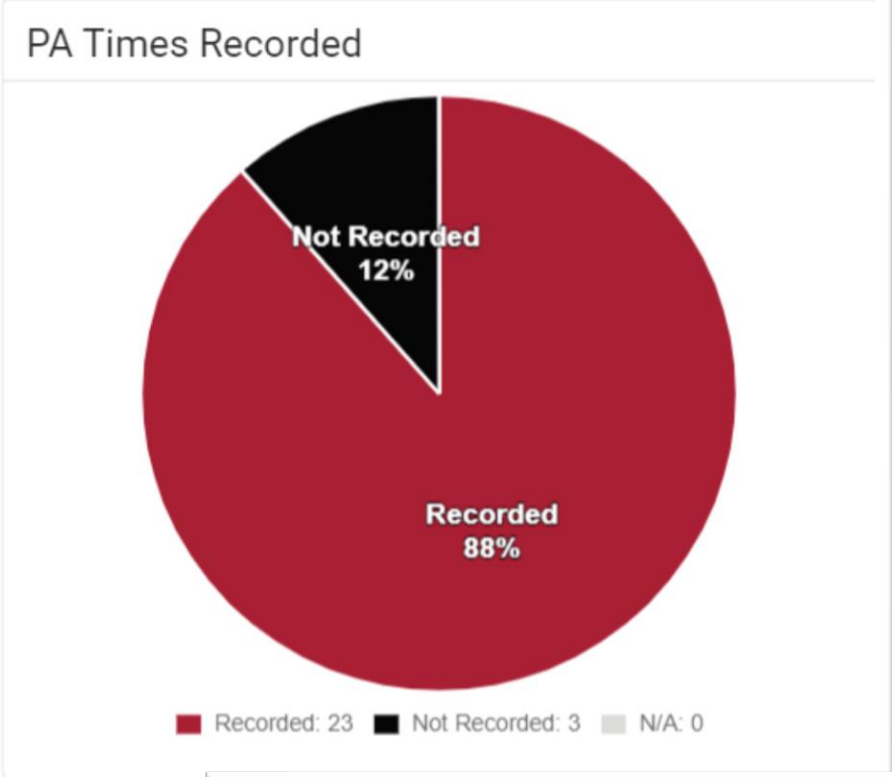

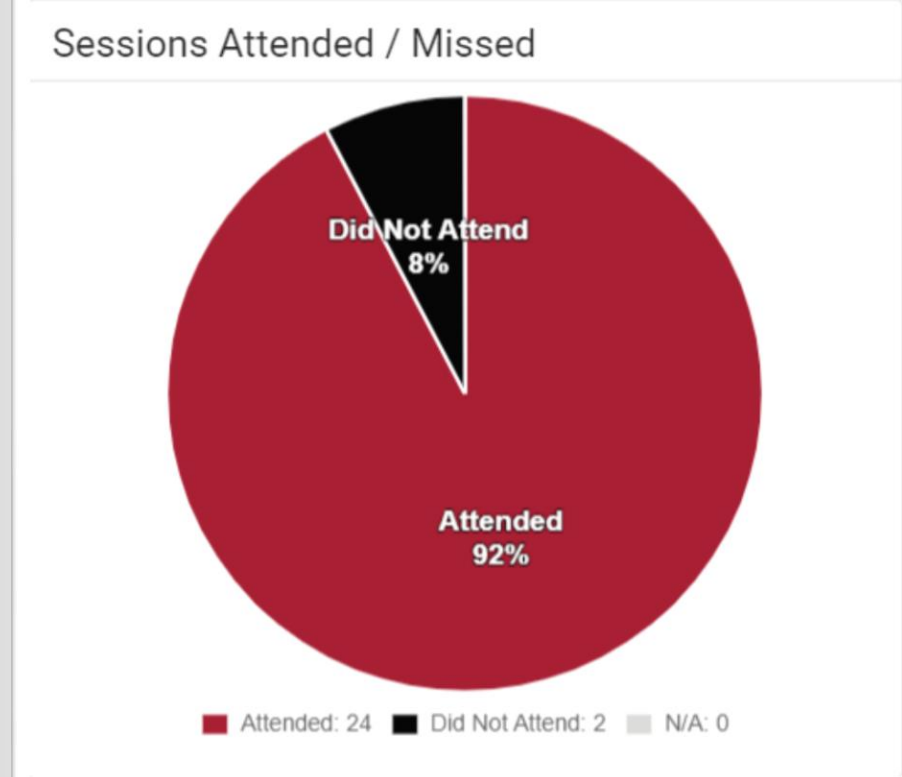

- ✓ Required data collection in simple everyday language
- ✓ Documentation of biometric data.
- ✓ DPRP data reports at the click of a button
- ✓ Preflight check to check for potential DPRP data quality checks or errors
- ✓ In-depth program metrics reports based on selected filters
- ✓ Participant progress reports for participants or health care providers
- ✓ Recruitment activity planning and tracking features
- ✓ Track recruits and their level of interest in enrolling
- ✓ Send texts and emails to active participants as well as recruits to share information and resources
- ✓ Track who are referring participants
