

## DPP Express: Do More With Your Data

The **American Diabetes Association®** (ADA) is committed to promoting the National Diabetes Prevention Program and making recognized lifestyle change programs accessible to everyone. The ADA's **DPP Express** allows programs to collect and report their data through a streamlined, user-friendly experience. **DPP Express**, is a Health Insurance Portability and Accountability Act (HIPAA)–compliant, Web-based charting platform, that aligns with the Center for Disease Control and Prevention (CDC) Diabetes Prevention Recognition Program (DPRP) 2021 Standards and Operating Procedures.

**Platform Features:** Programs can choose from basic or advanced features access plans.

### Basic Access Plan

- Accurate DPRP data submission reports at the click of a button to meet all current and future CDC guidelines
- Required data collected in simple everyday language— not coding values
- Cohort information page allows for quick documentation across all participants in the cohort
- Comprehensive program metric reporting showing your program's performance.
- Multiple report filters allowing you to focus on specific segments of your program

### Advanced Features Access Plan (Basic Plan + ▲ )

- ▲ Recruitment features allow you to record recruitment activities and keep track of people recruited and their interest level in enrolling
- ▲ Communicate directly with participants and recruits through text and email from the platform
- ▲ Track referrals made by providers and employers
- ▲ Billing reports to simplify billing and claims – Including reports for Medicare and Medicaid (California and Minnesota)

### Platform Annual Access Fees

Programs can choose from basic features or advanced features. ADA Education Recognition Program (ERP) organizations receive a discount on their annual fee.

	Annual Fee	ERP Annual Fee	One Time Onboarding Fee
<b>Basic Access</b>	<b>\$500</b>	<b>\$300</b>	<b>\$250</b>
<b>Advanced Access</b>	<b>\$650</b>	<b>\$450</b>	<b>\$250</b>
