

Technical Assistance

The National LGBT Cancer Network provides customized training and technical assistance opportunities through our webinars and educational opportunities via our online resource library. Our short- and long-term technical assistance and training focus on a variety of topics including LGBTQ+ best practices for clinicians and community groups, enhancement of data collection, and LGBTQ+ community engagement.

For Technical Assistance related requests/questions, please contact: Knoll Larkin (Knoll@cancer-network.org)

Membership

Organizational membership is free. We currently have over 450 tobacco and cancer control national, state, and local agencies, academic institutions or projects that are members. Members are able to co-brand and distribute materials we produce. They are also eligible for direct technical assistance from us.

Are you ready to sign your organization up for membership? Then please fill out this form: <https://airtable.com/shrE5MDoKBB2Xp1dG>

Join our mailing list for our monthly newsletter:

Cancer Cards

Cancer Cards: <https://cancer-network.org/resources/cancer-cards/>

Cancer Cards for social media: <https://cancer-network.org/resources/cancer-cards-for-social-media/>

These cards aim to raise awareness about colorectal, breast, lung, skin, and cervical cancer among members of the LGBTQ+ community. There are also cards that address the need for taking care of an individual's physical and mental health. Each bundle includes the front and the back of the cards in JPEG format.

Colorectal Cancer Awareness Graphics

<https://cancer-network.org/resources/colorectal-cancer-awareness-month/>

Graphics for Instagram, Facebook, LinkedIn and Twitter to help raise awareness about screening guidelines for LGBTQ+ communities.

LGBTQ+ Cancer Virtual Peer Support Groups:

Flyer download: <https://cancer-network.org/resources/free-virtual-lgbtq-cancer-peer-support-groups/>

The National LGBT Cancer Network is currently running cancer peer-support groups. These are free Zoom groups for LGBTQ+ people who have and have had cancer. If you would like to learn more about our cancer peer-support groups, visit our [Cancer Support page](#) or our [Signup Page](#).

TRANSforming Cancer Microsite

<https://cancer-network.org/transgender-and-gender-non-conforming-care/>

Support, resources, personal stories and screening information for transgender and gender non-conforming cancer care.

Frankly Microsite

<https://cancer-network.org/sex-after-cancer-treatment/>

Sex and sexuality are a big part of who the LGBTQ+ community is. Sexual dysfunction due to cancer can be uniquely detrimental to physical, emotional and mental health. Frankly is on a mission to break the myth that queer people on the cancer journey are just happy to be alive. We know people with chronic illness are sexual and desire sex. This space is for LGBTQ+ folks to share stories about their sexual desires and dysfunctions, the challenges disabilities can have on relationships and breakthrough discoveries about how to reclaim intimacy and gain sexual satisfaction.

Outlast Tobacco

<https://cancer-network.org/outlast-tobacco/>

Outlast Tobacco is our LGBTQ+ cessation quitline portal designed to provide community-specific motivation and encouragement to LGBTQ+ people who use tobacco products.

Welcoming Spaces Training

<https://cancer-network.org/welcoming-spaces/>

The National LGBT Cancer Network is proud to launch Welcoming Spaces: Treating Your LGBTQ+ Patient, our updated and expanded LGBTQ+ Cultural Humility training designed specifically for healthcare professionals. Developed in collaboration with the Society of Gynecologic Oncology, the eight modules are each 45 minutes long, available for Continuing Education(CE) Credits, and free for the first year.

Out: The National Cancer Survey

<https://cancer-network.org/out-the-national-cancer-survey/>

One of the largest-ever studies of LGBTQI+ people with cancer.
