**PROGRAM PURPOSE:**

The National Association of Chronic Disease Directors (NACDD) is a national public health non-profit agency focused on the health of the public by strengthening state and national leadership and expertise for chronic disease prevention and control. NACDD’s core membership is composed of the 58 State and Territorial Health Department Chronic Disease Directors and their staff who protect the health of the public through primary and secondary prevention efforts and work “upstream” on root causes of chronic conditions. NACDD promotes health and reduces the burden of chronic disease through various programs and initiatives. Among them is the Building Resilient and Inclusive Communities (BRIC) program being implemented across 20 states in collaboration with the Centers for Disease Control and Prevention’s (CDC) Division of Nutrition, Physical Activity, and Obesity and the Division of Population Health, and a team of nationally recognized experts.

To enhance public health resources across the country and support state and local public health settings respond to and recover from the COVID-19 pandemic, the Public Health AmeriCorps (PHA) program supports the recruitment, training, and development of the next generation of public health leaders. In partnership with a State Health Department or similar agency, local health department(s) or other community-based organization(s), and/or a local YMCA or YMCA State Alliance, Service Members will be placed across ten BRIC states to advance existing efforts around food and nutrition security, safe physical activity access, social connectedness, and health equity, all within the context of the impact of the COVID-19 pandemic.

**SPECIFIC SERVICE FUNCTIONS AND RESPONSIBILITIES:**

The PHA Service Member will work in the recently added area of Well-being within the Minnesota Department of Health’s Statewide Health Improvement Partnership (SHIP) initiative. Well-being also incorporates social connectedness which aligns with the BRIC strategy. The Service Member will work with the Well-being Team within SHIP and will report to the Supervisor of the Healthy Communities/Healthy Systems Unit. The primary role of the Service Member is to support the BRIC Statewide activities for Social Connectedness and SHIP Well-being strategies for workplaces, schools, and childcare settings through research, review of current SHIP work, and identifying needs through working with local public health partners.

The Service Member will complete training on core public health practices, community-based Well-being strategies, review information about relationship between equity and Well-being, and learn about Well-being work currently being undertaken by various public sector and nonprofit entities within the state. S/he/they will learn about SHIP and grantee structure, and the policy, systems, and environment approach to sustainable work. Once oriented to the structures in which the work is done, the Service Member will engage in the following activities:

- Build and contribute a strong theoretical and scientific foundational knowledge of well-being within the public health field and share knowledge with MDH Team and local public health partners.

---
