		Cancer Clinic Quality Improvement	Plan:: TEMP	PLATE					
Budget Period:	June 30th, 2020-June 29th, 2023 (FY23)								
isease Areas:	BC, CC, & CRC								
cronyms and Definit	tions								
uarters									
	Quar	rter 1 (Q1) June 30th- September 30th							
	Quai	rter 2 (Q2) October 1st -December 31st							
	Quai	rter 3 (Q3) January 1st- March 31st							
	Quai	rter 4 (Q4) April 1st -June 29th							
ealth Systems Asses	sment								
ssessment Approach	Briefly describe the assessment approach used to define the current environment within the health system and needed interventions. (e.g., interviews with key staff, review of clinic and health system data).								
urrent Environment	clinic sites, existing B&C screening	h system environment: internal/external (e.g., number of primary care policy and procedures, current screening processes, workflow approach, nandates from state or federal agencies, political climate, and							
ommunications, Mar	nagement, and Monitoring								
ommunication	Briefly describe how you will main implementation activities, monito	ntain communications with the health system partner regarding ring, and evaluation							
upport	Briefly describe how you will provide ongoing technical support to this health system partner to support implementation success. Include details about who will provide support and frequency of support.								
ata Collection	Briefly describe how you will collaborate with this health system to collect clinic baseline breast and cervical cancer screening rates and annual data to complete CDC-required clinic data forms.								
ustainability	Briefly describe how you plan to (1) retain partners, (2) continue to collect annual screening and other data throughout the five year grant period, and (3) promote continued implementation, monitoring, and evaluation post-partnership.								
	evaluation post-partnership.
