

That was a long day.  
I'm ready to retire soon  
and have more time to  
spend with Norma.

Hey Martin, ¿Qué pasa?

I just got a message from Santiago. He's sick. He just found out he has colon cancer.

Oh no! That's terrible!  
He's younger than us,  
how is that possible?

Let's pull over and call him  
right now - I can't believe it.

Hey, amigo. Just got your message, Jose is also here. How are you doing?

Hola compadres. I'm weak, but I think I'll get through it. Just taking it one day at a time.

Santiago, what can we do? How can we help?

You know what you can do for me?

Tell us, we'll do anything.

Do what I  
should have  
done earlier.  
Do it for  
yourself.  
Do it for me.

What's that?

Just mail in your FIT kit.  
It's probably lying around  
in your house.

FIT kit?

Yes, we get it in the mail every summer. Last time I did it was about 5 years ago. After that I got too busy... I just kept putting it off.

It's a colon health test that you can do at home... and it will help you find a problem early. I learned that 1 in 20 people in the U.S. will be diagnosed with colon cancer in their lifetime. But you can prevent colon cancer. This is why screening is so important.

I'll do it today, I promise. Santiago, stay strong. I'll come over later tonight.

Me too, amigo. I didn't realize how important it was to catch it early.

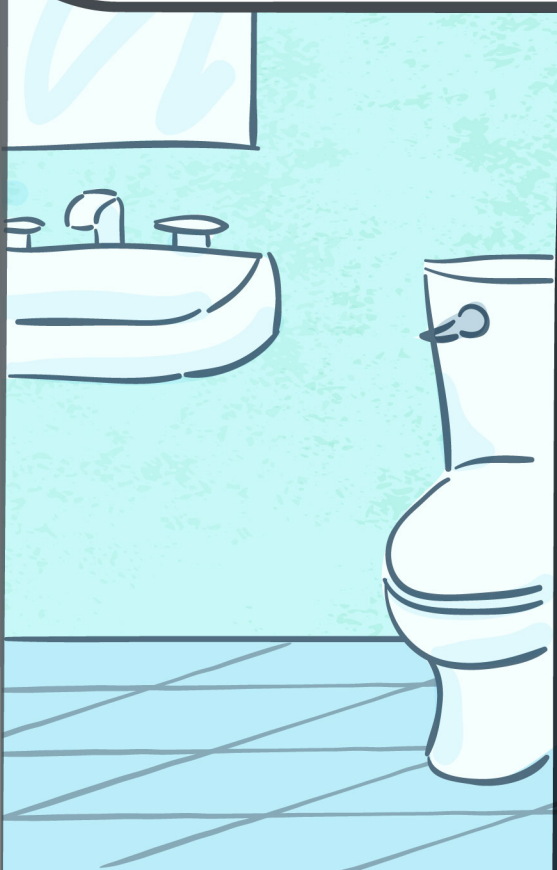

Abuelo, I'm hungry!

Just wait a few minutes, I have something important to do. Then we'll eat together!

*I'll do this for myself and Santiago...and my family.*
