

## Facilitating Implementation Tactics for Colorectal Cancer Screening ECHO (FIT CRC ECHO)

- The FIT CRC ECHO assists FQHCs in the implementation of evidence-based interventions (EBI's) to increase colorectal screening rates. The sessions include didactic presentations by subject matter experts in the implementation of selected EBI's, group learning through individual case presentation, and feedback from peers and subject matter experts.
- Enhance your knowledge of EBI's to increase colorectal cancer screening so that you can become a resource in your practice and community.
- No Cost CME Available

Join us on the  
Third Thursday of each month  
by Zoom!  
12:00 PM to 1:00 PM (CST)

### Who can attend?

This ECHO may be of interest to FQHC Administration, Informatics Professionals, Clinic Staff, Laboratory Leadership and Staff, Community Health Workers, Case Managers, Patient Navigators, and anyone with an interest in colorectal cancer.
