## **Mentimeter**

## What excites you about integrating nutrition into health and healthcare?

## **Mentimeter**

## What do you see as a major challenge to consider in this work?

```
ignorance
                                            physician buy in
                 policy changes
                                            universal access
   farm bill
                                               individualism
       food access
                    collaboration
          racism
                                                      more republicans
               low awareness
                                                      health care silos
                                                                     regulation
                                                       choice
                                                       accessibility
                                                           resources
availabity
    funding
                                                             food security
                                  shifting norms
                                                        price
                                                                 disinterest
                            myths around nutrition
                                 shift to prevention
           cultural traditions
          staff capacity
                                    transportation
                              medical education
