

## **New Hampshire Colorectal Cancer Screening Program**

*Working Toward Improving Health in New Hampshire*

### **About the Program:**

The New Hampshire Colorectal Cancer Screening Program (NHCRCSP) is a CDC-funded program designed to increase colorectal cancer (CRC) screening quality and rates. The NHCRCSP has worked with New Hampshire health systems and Federally Qualified Health Centers for over ten years.

### **Partnership Resources:**

NHCRCSP collaborates with partner clinics, offering support, resources and expertise, to implement evidence-based interventions that are proven to increase CRC screening quality and rates.

### **Evidence-based interventions (EBIs) include:**

Patient reminders  
Provider reminders  
Provider Assessment and Feedback  
Reducing Structural Barriers

**Patient Navigation** is an extremely helpful supporting intervention.

### **Contact NHCRCSP:**

Phone: 603-653-3702

Fax: 603-727-7798

Email: [NHCRCSP@hitchcock.org](mailto:NHCRCSP@hitchcock.org)

## **New Hampshire Colorectal Cancer Screening Program**

*Working Toward Improving Health in New Hampshire*

**Patient Navigation** is an extremely helpful intervention.

### **Patient Navigation Program:**

NHCRCSP collaborates with partners to provide patient navigation to help patients complete the CRC screening process.

### **Who is eligible for NHCRCSP navigation?**

- A) Patients who would benefit from help to complete the colorectal cancer screening (CRC) process.
- B) Patients who need navigation and are underinsured or uninsured and need financial assistance for colonoscopy coverage **after a positive stool test.**

We look forward to caring for your patients together!
