

Healthcare System CRC Activities Timeline

MPICCS/Health System Timeline:

Evidence-based Interventions:

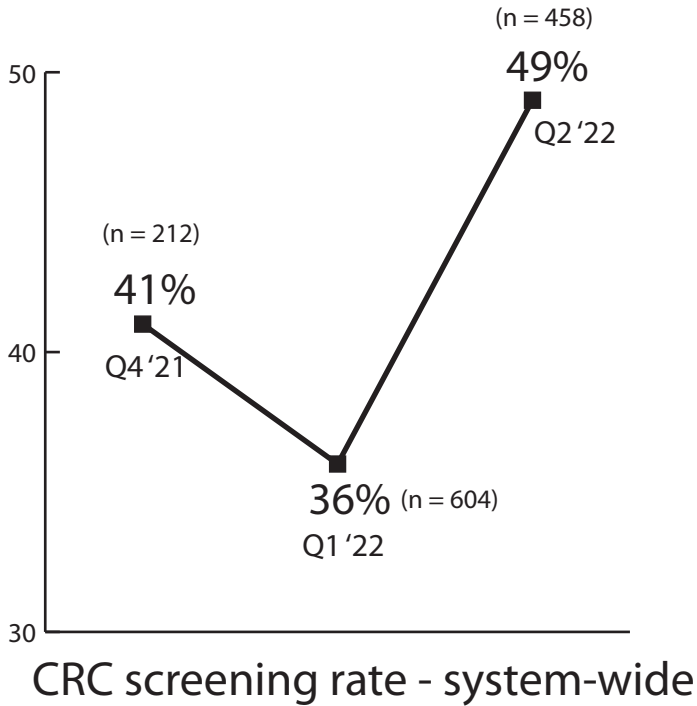

Patient Reminders

1. DRVS report run each quarter of non-compliant patients. Information sent to nurse in each clinic
2. CHWs call and text patients 1x/week for 3 weeks. Patients with positive home test receive letter
3. Weekly phone calls x 3 weeks to remind patients to return FIT kits. FIT kits tracked in EHR
4. Colonoscopy referrals tracked by referral coordinator. Care team reaches out to patient 3x to f/u if patient no-shows

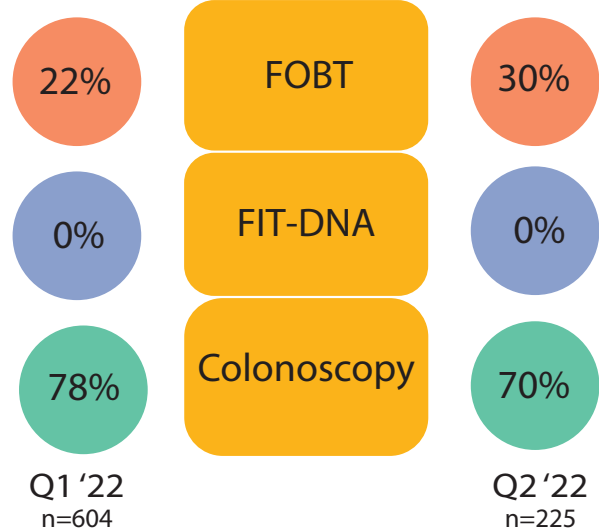

Reducing Structural Barriers

1. Discounted FIT from October to December
2. CHWs work with patients to assess transportation barriers
 - a. Gas cards given if gas money needed.
 - b. Assisted Rides used to help patients with transportation needs. Transportation coordinator reaches out to patient to help schedule a ride

Quarter 2, 2022

National CRC Goal: 80%
of additional screenings
per month to achieve goal:
15 patients

Quarterly CRC screening rates and number of screening tests*
