

RETURN FIT VIDEO

The Utah CRCCP team is working on a video that shows the process of receiving, completing, and returning a FIT to the clinic. This video will have no voiceover or text in order for it to cross any language barriers. These images will be included in the video. The anticipated completion date is the end of 2022. We will then roll out to clinics for use with their patients and possibly include a link in the FIT reminder text messages.
