iCount 2022: NACDD's Member Census

To fulfill our mission of reducing chronic disease burden in the US, NACDD needs to know who our Members are in state and territorial health departments, why they value NACDD, and what NACDD activities they are engaged in. NACDD's annual iCount initiative is your opportunity to verify your Member data and confirm who you are, how to contact you, what projects you are working on, and how NACDD can support your efforts to reduce the burden of chronic disease and promote health.

Who Participates in iCount

NACDD's iCount Member census specifically focuses on NACDD's General Members, who are staff within every State and Territorial Chronic Disease Unit.

What We Count

As part of the iCount initiative, NACDD gathers basic contact and demographic information for every General Member, including name, title, email, and phone number. We also request information about the programs the Member works on and any professional interests the Member has.

How We Use Your Information

iCount census information is provided voluntarily. We use the information Members share with us to provide important and relevant news and information, targeted opportunities to engage with other NACDD community members, access to tools and resources to help Members with their work and much more. We do not sell your information nor share it externally.

Did You Know?

NACDD's Mission is to improve the health of the public by strengthening state-based leadership and expertise for chronic disease prevention and control in states and at the national level.

How to Participate in iCount

In most cases, General Members will receive an automated email with their unique survey link. Completing the survey takes less than 10 minutes. iCount will run from May through June 2022.

How to Update Your Info Anytime

You don't have to wait for iCount to make sure we have the most complete information for you. You can contact members@chronicdisease.org with any new details you'd like to share.

Be Counted

iCount is just one step in a journey with NACDD to help you enhance your work, remained informed as a professional, and grow your career. Engage with us today to learn how we can support you and through you, the communities you serve.

Did You Know?

82% of Members find connecting NACDD staff and consultants to be very useful.
(2020 Survey of States)

Ways to Get Involved with NACDD

NACDD provides various opportunities for Members to become involved with their Association through councils, committees, communities of practice, GEAR Groups, and forums.

- **Committees** help inform the strategic direction of chronic disease prevention and control
- **Councils** act as a collective voice for change and advocate on behalf of State and Territorial Health Departments.
- **Communities of practice** are opportunities to engage at a higher level, providing Members with a pathway between CDC and State Health Departments, making it easier for states to fulfill their requirements and achieve success
- **GEAR Groups** stand for “Generate.Educate.Activate.Respond” and are NACDD’s case-based peer-to-peer learning opportunity designed to catalyze planning for longer-term state-level action.

About the National Association of Chronic Disease Directors

NACDD’s core membership is composed of the 59 State and Territorial Health Department Chronic Disease Directors and their staff who protect the health of the public through primary and secondary prevention efforts and work “upstream” on root causes of chronic conditions.

In addition, NACDD unites 7,000 chronic disease professionals across the United States working in state, tribal, and territorial health departments, nonprofits, academia, and the private industry to promote health and to reduce the burden of chronic disease.

NACDD at a Glance

As a national, nonprofit, professional Association, we advocate, educate, and provide technical assistance, to inform programming and grow chronic disease prevention knowledge, leadership, and capacity among our Membership.
