Meeting Norms

- Encourage each other to be emotionally, intellectually, and socially engaged
- Feel free to speak *your* truth, while knowing it's only *part of* the truth, and empathizing with the truth *of others*
- Listen to understand
- Practice being vulnerable. It's ok to speak in rough draft.
- Be mindful of the impact of what you say, not just your intention
- Understand that we are all learning
- Be ok with not having all of the answers and be honest about your capacity
- Communicate positive, reflective, constructive feedback for collective solutions

Catholic Charities
of Northern Nevada

Successes –

Food Pantries and Hot Meals

- 36 pantries across 11 Nevada counties
 - Families/Individuals
 - Paiute/Shoshone/Washoe Tribes
 - Seniors/Veterans
 - School connections/PIF and counselors
- Including Local pantries and Neighborhood Centers/Client Choice Pantries
 - Over 1000 hot meals per month are served to CCP (2) and partner agencies

Challenges

- Refrigerated food transportation and storage
 - Delivery of fresh, nutritious food 350 miles from main campus
 - Need for additional refrigerated trucks
 - Need for refrigeration at destination to store fresh and nutritious items (dairy, protein, produce)

Lessons Learned

- Culturally competent foods
 - Provided at all pantries
 - Survey indicated almost 50% this was important
- CCNN learned how important it is for clients to give back
 - Empanadas, salsa, gorditas made for staff
- Need ever increasing

What's Next? – increase capacity

- CCNN continues to provide fresh, nutritious food across Nevada
 - Expansion to 12 counties
 - 5+ tribes/reservations (Paiute/Shoshone/Washoe)
 - Summit Lake, Duckwater, McDermitt, Fallon, Pyramid Lake, Eureka, Reno Sparks Indian Colony
 - Need for senior home food box deliveries

Successes, Challenges and Lessons Learned

Please go to [Jamboard](#) to share your work – what's worked, challenges and lessons learned.

The link will be dropped in the chat.

What success have you had in aligning your work with the White House National Strategy? What do you attribute that too?

WV has a successful PPP program with partnerships with WVU Extension, OHSR and BPH.

Alaska stood up a statewide Active Transportation Coalition and attribute success to the DOH/DOT partnership & folding in other sectors around the state

Applying for and receiving Harvard's Scaling FIM TA opportunity. Kicking off OK Food is Medicine Coalition next month. Success is due to strong partnerships in state

What has been your biggest challenge in implementing National Strategy? How could you address these challenges?

Funding to support communities work in the strategies. Continue to support with TA and educational materials.

Our PAN team currently does not have sustainable funding. Addressing this by applying for out of the box funding streams, but really wish we could just have SPAN!

What were your lessons learned related to implementation of the National Strategy?

Getting the right partners to the table to get things done without funding.

There is a lot going on with many different programs. Coordinating these efforts can be challenging.

**AMEN!!!
From WV**

Albeit the Federal Government has identified this issue there is a lack of equity across states that diminishes the importance or gives the appearance of lack of importance.

What are your next steps?

Continue the fight with or without the help from the CDC.

Integrate WH strategies into our next 5 year strategic plan.

Alaska: Creating a MOU between DOH + DOT to formalize the partnership moving forward with the AT Coalition.

Evaluating what pieces I can make some headway on and try to build stronger partnerships

I am currently begging from state programs and partnering with other agencies to bridge the gaps...
