

Population Health Management Quality Dashboard

Our health system has a quality dashboard that leadership, managers, providers, and medical support staff have access to. The quality metrics data can be viewed at a system, department and down to a provider level.

A providers' patient not at goal list can be drilled down to the patient level to review and be worked on

A patient not at goal list can be obtained for a measure simply by right clicking on any of the red areas in the measure

Adult HTN Patient List
Patients Not At Goal for Blood Pressure (Outcome)

HTN Patient List for:
Refreshed as of: October 27, 2019

Patient Name	MHN	Age	Risk Score	Next PMD Appointment Date	Last PMD Appointment Date	Last Hospitalization Date	BP at Goal	Tobacco Asked	Tobacco Free	Tobacco Counseling	Ace Arb Therapy	Advanced Directives
		48	1.091	10/30/2019	09/04/2019		N	Y	N	Y	NA	NA
		65	0.618	12/27/2019	08/29/2019		N	Y	Y	NA	NA	N
		47	0.263	12/21/2019	12/21/2018		N	Y	Y	NA	NA	NA
